Volume 40, July–December 2002

A

Adipose tissue
Angiotensin Blockade Prevents Type 2 Diabetes by Formation of Fat Cells, 609

Adrenergic receptor blockers
Effects of Doxazosin and Propranolol on A_{2A} Adenosine Receptors in Essential Hypertension, 909

Adrenergic receptors
Essential Hypertension and β_2-Adrenergic Receptor Gene: Linkage and Association Analysis, 286

Adrenomedullin
Long-Term Adrenomedullin Administration in Experimental Heart Failure, 667
Long-Term Adrenomedullin Infusion Improves Survival in Malignant Hypertensive Rats, 107

Age
Association of GNAS1 Gene Variant With Hypertension Depending on Smoking Status, 261

Aging
Chronology Versus Biology: Telomeres, Essential Hypertension, and Vascular Aging, 229

Aldosterone
Aldosterone Antagonist Improves Diastolic Function in Essential Hypertension, 647
Aldosterone Breakthrough During Angiotensin II Receptor Antagonist Therapy in Stroke-Prone Spontaneously Hypertensive Rats, 28
Drug Effects on Aldosterone/Plasma Renin Activity Ratio in Primary Aldosteronism, 897
Efficacy of Eplerenone Added to Renin-Angiotensin Blockade in Hypertensive Patients, 117
Excess Aldosterone Is Associated With Alterations of Myocardial Texture in Primary Aldosteronism, 23
Long-Term Adrenomedullin Administration in Experimental Heart Failure, 667
Mineralocorticoid and Angiotensin Receptor Antagonism During Hyperaldosteronemia, 124
Racial Difference in the Activity of the Amiloride-Sensitive Epithelial Sodium Channel, 903
Rapid Effects of Aldosterone and Spironolactone in the Isolated Working Rat Heart, 130
Role of Cyclooxygenase-2 in the Prolonged Regulation of Renal Function, 721
Spironolactone Improves Angiotensin-Induced Vascular Changes and Oxidative Stress, 504

Angiogenesis
Angiogenesis and Antifibrotic Action by Hepatocyte Growth Factor in Cardiomyopathy, 47

Angioplasty
Progressive Hypertension in a Patient With "Incidental" Renal Artery Stenosis, 595

Angiotensin
ACE Inhibition Versus Angiotensin Type 1 Receptor Antagonism: Differential Effects on PAI-1 Over Time, 859
Angiotensin Blockade Prevents Type 2 Diabetes by Formation of Fat Cells, 609
Angiotensin II Triggers EGFR Tyrosine Kinase-Dependent Ca^{2+} Influx in Afferent Arterioles, 700
Antithrombotic Effect of Captopril and Losartan Is Mediated by Angiotensin-(1-7), 774
AVE 0991, a Nonpeptide Mimic of the Effects of Angiotensin-(1-7) on the Endothelium, 847
Effect of Estrogen and AT_1 Receptor Blocker on Neointima Formation, 451
Hemodynamic and Humoral Effects of Vasopeptidase Inhibition in Canine Hypertension, 528
N-Acetyl-Ser-Asp-Lys-Pro Inhibits Phosphorylation of Smad2 in Cardiac Fibroblasts, 155
Ventrolateral Medulla AT_1 Receptors Support Blood Pressure in Hypertensive Rats, 552

Angiotensin antagonist
Angiotensin II AT_1 Receptor Antagonists Inhibit Platelet Adhesion and Aggregation by Nitric Oxide Release, 521
Angiotensin II Induces Catecholamine Release by Direct Ganglionic Excitation, 348
Role of AT_2 Receptors in the Cardioprotective Effect of AT_1 Antagonists in Mice, 244

Angiotensin II
Acute Antihypertrophic Actions of Bradykinin in the Rat Heart: Importance of Cyclic GMP, 498
Aldosterone Breakthrough During Angiotensin II Receptor Antagonist Therapy in Stroke-Prone Spontaneously Hypertensive Rats, 28
Angiotensin II and Oxidative Stress in Dahl Salt-Sensitive Rat With Heart Failure, 834
Angiotensin II AT_1 Receptor Antagonists Inhibit Platelet Adhesion and Aggregation by Nitric Oxide Release, 521
Angiotensin II Constriction of Rat Vasa Recta Is Partially Thromboxane Dependent, 541
Angiotensin II Induces Catecholamine Release by Direct Ganglionic Excitation, 348
Angiotensin II-Induced Insulin Resistance Is Associated With Enhanced Insulin Signaling, 872
AT_1 Receptor Blockade Reduces Cardiac Calcineurin Activity in Hypertensive Rats, 168
Differential Regulation of Elevated Renal Angiotensin II in Chronic Renal Ischemia, 34
Endothelin-Converting Enzyme Inhibition Ameliorates Angiotensin II-Induced Cardiac Damage, 840
Exogenous Angiotensin II Does Not Facilitate Norepinephrine Release in the Heart, 491
Increase in Cx45 Gap Junction Channels in Cerebral Smooth Muscle Cells from SHR, 940
P450-Dependent Arachidonic Acid Metabolism and Angiotensin II-Induced Renal Damage, 273
Role of $p47^{phox}$ in Vascular Oxidative Stress and Hypertension Caused by Angiotensin II, 511
Rostral Ventrolateral Medulla Neurons of Neonatal Wistar-Kyoto and Spontaneously Hypertensive Rats, 560
Simvastatin Prevents Angiotensin II-Induced Cardiac Alteration and Oxidative Stress, 142
Spironolactone Improves Angiotensin-Induced Vascular Changes and Oxidative Stress, 504

Angiotensin-converting enzyme
ACE Inhibition Versus Angiotensin Type 1 Receptor Antagonism: Differential Effects on PAI-1 Over Time, 859
ACE Inhibitor Improves Insulin Resistance in Diabetic Mouse Via Bradykinin and NO, 329
Acute Antihypertrophic Actions of Bradykinin in the Rat Heart: Importance of Cyclic GMP, 498
Angiotensin II and Oxidative Stress in Dahl Salt-Sensitive Rat With Heart Failure, 834
Augmented Diurnal Variations of the Cardiac Renin-Angiotensin System in Hypertensive Rats, 827
Differential Regulation of Elevated Renal Angiotensin II in Chronic Renal Ischemia, 34
Perindopril Effect on Uncoupling Protein and Energy Metabolism in Failing Rat Hearts, 251
Progressive Hypertension in a Patient With "Incidental" Renal Artery Stenosis, 595
Renal Hemodynamic and Natriuretic Effects of Concomitant Angiotensin-Converting Enzyme and Neutral Endopeptidase Inhibition in Men, 266

Angiotensin-converting enzyme inhibitors
Efficacy of Eplerenone Added to Renin-Angiotensin Blockade in Hypertensive Patients, 117
Treatment of Cardiovascular and Renal Risk Factors in the Diabetic Hypertensive, 781

Angiotensinogen
Augmented Diurnal Variations of the Cardiac Renin-Angiotensin System in Hypertensive Rats, 827
Antihypertensive agents
Effects of Doxazosin and Propranolol on A_{2A} Adenosine Receptors in Essential Hypertension, 909
Goal-Oriented Hypertension Management: Translating Clinical Trials to Practice, 464
Lack of Long-Term Effect of Vitamin C Supplementation on Blood Pressure, 797
Antihypertensive therapy
Aldosterone Antagonist Improves Diastolic Function in Essential Hypertension, 647
Drug Effects on Aldosterone/Plasma Renin Activity Ratio in Primary Aldosteronism, 897
Goal-Oriented Hypertension Management: Translating Clinical Trials to Practice, 464
Treatment and Control of Hypertension in the Community: A Prospective Analysis, 640
Antioxidants
Ascorbic Acid Reduces Blood Pressure and Arterial Stiffness in Type 2 Diabetes, 804
Serum Antioxidant Vitamins and Blood Pressure in the United States Population, 810
Apocynin
NAD(P)H Oxidase Inhibition Improves Endothelial Function in Rat and Human Blood Vessels, 755
Apoptosis
Kallikrein Gene Delivery Improves Cardiac Reserve and Attenuates Remodeling After Myocardial Infarction, 653
Arachidonic acids
Biphasic Regulation of Na^+-HCO_3^- Cotransporter by Angiotensin II Type 1A Receptor, 707
P450-Dependent Arachidonic Acid Metabolism and Angiotensin II-Induced Renal Damage, 273
Arterial pressure
Prognosis of Inappropriate Left Ventricular Mass in Hypertension: The MAVI Study, 470
Arteries
Ascorbic Acid Reduces Blood Pressure and Arterial Stiffness in Type 2 Diabetes, 804
Effect of Arterial Baroreceptor Denervation on Sodium Balance, 547
Noninvasive Study of Endothelial Function in White Coat Hypertension, 304
Upregulation of L-Type Ca^{2+} Channels in Mesenteric and Skeletal Arteries of SHR, 214
Arterioles
Blunted Tubuloglomerular Feedback by Absence of Angiotensin Type 1A Receptor Involves Neuronal NOS, 934
Arteriosclerosis
Antiinflammatory and Antiarteriosclerotic Effects of Pioglitazone, 687
Aspirin
Treatment of Cardiovascular and Renal Risk Factors in the Diabetic Hypertensive, 781
Assays
Effects of Doxazosin and Propranolol on A_{2A} Adenosine Receptors in Essential Hypertension, 909
Atherosclerosis
Is Cardiovascular Reactivity Associated With Atherosclerosis Among Hypertensives?, 742
Mitogenic Activity of Oxidized Lipoprotein (a) on Human Vascular Smooth Muscle Cells, 310
Autoregulation
Blunted Tubuloglomerular Feedback by Absence of Angiotensin Type 1A Receptor Involves Neuronal NOS, 934

B

Baroreceptors
Central Ghrelin Modulates Sympathetic Activity in Conscious Rabbits, 694
Effect of Arterial Baroreceptor Denervation on Sodium Balance, 547
Baroreflex
Ablation of NK1 Receptors in Rat Nucleus Tractus Solitarii Blocks Baroreflexes, 823
Heart Rate Variability and Baroreflex Function in AT_2 Receptor-Disrupted Mice, 207
Blacks
Amiloride, a Specific Drug for Hypertension in Black People With T594M Variant?, 13
Effects of Black Race on Forearm Resistance Vessel Function, 195
Genome Scan Among Nigerians Linking Blood Pressure to Chromosomes 2, 3, and 19, 629
Hyperaldosteronism Among Black and White Subjects With Resistant Hypertension, 892
Identification of Hypertension-Related QTLs in African American Sib Pairs, 634
Racial Difference in the Activity of the Amiloride-Sensitive Epithelial Sodium Channel, 903
Renal Perfusion in Blacks: Alterations Caused by Insuppressibility of Intrarenal Renin With Salt, 186
Blood flow
Cardiovascular Phenotypes of Kinin B_2 Receptor- and Tissue Kallikrein-Deficient Mice, 90
Effects of Hematocrit Changes on Flow-Mediated and Metabolic Vasodilation in Humans, 74
Endogenous Endothelin-1 Limits Exercise-Induced Vasodilation in Hypertensive Humans, 202
Blood pressure
Ablation of NK1 Receptors in Rat Nucleus Tractus Solitarii Blocks Baroreflexes, 823
Ascorbic Acid Reduces Blood Pressure and Arterial Stiffness in Type 2 Diabetes, 804
Brain Sodium Channels Mediate Increases in Brain "Ouabain" and Blood Pressure in Dahl S Rats, 96
Cardiovascular Phenotypes of Kinin B_2 Receptor- and Tissue Kallikrein-Deficient Mice, 90
Central Ghrelin Modulates Sympathetic Activity in Conscious Rabbits, 694
Circadian Differences in Stress-Induced Pressor 0Reactivity in Mice, 768
Classification of Blood Pressure Levels by Ambulatory Blood Pressure in Hypertension, 817
Essential Hypertension and β_2-Adrenergic Receptor Gene: Linkage and Association Analysis, 286
Genome Scan Among Nigerians Linking Blood Pressure to Chromosomes 2, 3, and 19, 629
Genome Scans for Blood Pressure and Hypertension: The National Heart, Lung, and Blood Institute Family Heart Study, 1
Hypertension, Insulin, and Proinsulin in Participants With Impaired Glucose Tolerance, 679
Impaired Fasting Glucose, Blood Pressure and Cardiovascular Disease Mortality, 458
Insulin Sensitivity and Blood Pressure in Black and White Children, 18
Lack of Long-Term Effect of Vitamin C Supplementation on Blood Pressure, 797
Noninvasive Study of Endothelial Function in White Coat Hypertension, 304
Nonnarcotic Analgesic Use and the Risk of Hypertension in US Women, 604
Racial Difference in the Activity of the Amiloride-Sensitive Epithelial Sodium Channel, 903
Reactivity as a Predictor of Subsequent Blood Pressure: Racial Differences in the Coronary Artery Risk Development in Young Adults (CARDIA) Study, 914
Serum Antioxidant Vitamins and Blood Pressure in the United States Population, 810
Serum- and Glucocorticoid-Regulated Kinase (SGK1) Gene and Blood Pressure, 256
Treatment and Control of Hypertension in the Community: A Prospective Analysis, 640
Vascular Responses in Male and Female Hypertensive Rats With Hyperhomocysteinemia, 322
Blood pressure determination
Prognostic Value of Office and Ambulatory Blood Pressure Measurements in Pregnancy, 298
Blood pressure monitoring
Goal-Oriented Hypertension Management: Translating Clinical Trials to Practice, 464

Blood pressure monitoring, ambulatory
Classification of Blood Pressure Levels by Ambulatory Blood Pressure in Hypertension, 817
Prognostic Value of Office and Ambulatory Blood Pressure Measurements in Pregnancy, 298
Blood vessels
NAD(P)H Oxidase Inhibition Improves Endothelial Function in Rat and Human Blood Vessels, 755
Body mass index
Genes and Family Environment Explain Correlations Between Blood Pressure and Body Mass Index, 7
Identification of Hypertension-Related QTLs in African American Sib Pairs, 634
Brachial
Noninvasive Study of Endothelial Function in White Coat Hypertension, 304
Bradykinin
ACE Inhibitor Improves Insulin Resistance in Diabetic Mouse Via Bradykinin and NO, 329
Acute Antihypertrophic Actions of Bradykinin in the Rat Heart: Importance of Cyclic GMP, 498
Brain
Brain Sodium Channels Mediate Increases in Brain "Ouabain" and Blood Pressure in Dahl S Rats, 96
Programming Effects of Short Prenatal Exposure to Dexamethasone in Sheep, 729
Rostral Ventrolateral Medulla Neurons of Neonatal Wistar-Kyoto and Spontaneously Hypertensive Rats, 560
Ventrolateral Medulla AT_1 Receptors Support Blood Pressure in Hypertensive Rats, 552
Brain natriuretic peptide
Chamber-Dependent Expression of Brain Natriuretic Peptide and Its mRNA in Normal and Diabetic Pig Heart, 54

C

Calcium
Angiotensin II Triggers EGFR Tyrosine Kinase-Dependent Ca^{2+} Influx in Afferent Arterioles, 700
Calcium channel blockers
Norepinephrine Enhances Fibrosis Mediated by TGF-β in Cardiac Fibroblasts, 148
Calcium channels
Upregulation of L-Type Ca^{2+} Channels in Mesenteric and Skeletal Arteries of SHR, 214
Candesartan
Rostral Ventrolateral Medulla Neurons of Neonatal Wistar-Kyoto and Spontaneously Hypertensive Rats, 560
Captopril
Antithrombotic Effect of Captopril and Losartan Is Mediated by Angiotensin-(1-7), 774
Cardiac function
Cardiovascular Phenotypes of Kinin B_2 Receptor- and Tissue Kallikrein-Deficient Mice, 90
Perindopril Effect on Uncoupling Protein and Energy Metabolism in Failing Rat Hearts, 251
Rapid Effects of Aldosterone and Spironolactone in the Isolated Working Rat Heart, 130
Cardiomyopathy
Angiogenesis and Antifibrotic Action by Hepatocyte Growth Factor in Cardiomyopathy, 47
Cardiovascular diseases
Chronology Versus Biology: Telomeres, Essential Hypertension, and Vascular Aging, 229
Impaired Fasting Glucose, Blood Pressure and Cardiovascular Disease Mortality, 458
Obesity Hypertension in Children: A Problem of Epidemic Proportions, 441
Prognosis of Inappropriate Left Ventricular Mass in Hypertension: The MAVI Study, 470
Simvastatin Prevents Angiotensin II-Induced Cardiac Alteration and Oxidative Stress, 142
Cardiovascular reactivity
Is Cardiovascular Reactivity Associated With Atherosclerosis Among Hypertensives?, 742
Cardiovascular risk
Norepinephrine and Concentric Hypertrophy in Patients With End-Stage Renal Disease, 41
Carotid intima-media thickness
Is Cardiovascular Reactivity Associated With Atherosclerosis Among Hypertensives?, 742
Carotid plaque
Is Cardiovascular Reactivity Associated With Atherosclerosis Among Hypertensives?, 742
Catecholamines
Angiotensin II Induces Catecholamine Release by Direct Ganglionic Excitation, 348
Catecholamine-Related Gene Expression Correlates With Blood Pressures in SHR, 342
Central nervous system
Central Ghrelin Modulates Sympathetic Activity in Conscious Rabbits, 694
Ventrolateral Medulla AT_1 Receptors Support Blood Pressure in Hypertensive Rats, 552
Children
Insulin Sensitivity and Blood Pressure in Black and White Children, 18
Obesity Hypertension in Children: A Problem of Epidemic Proportions, 441
China
Prevalence, Awareness, Treatment, and Control of Hypertension in China, 920
Chromosomes
Essential Hypertension and β_2-Adrenergic Receptor Gene: Linkage and Association Analysis, 286
Genome Scan Among Nigerians Linking Blood Pressure to Chromosomes 2, 3, and 19, 629
Chymase
Differential Regulation of Elevated Renal Angiotensin II in Chronic Renal Ischemia, 34
Circadian rhythm
Augmented Diurnal Variations of the Cardiac Renin-Angiotensin System in Hypertensive Rats, 827
Circadian Differences in Stress-Induced Pressor Reactivity in Mice, 768
Clinical trials
Lack of Long-Term Effect of Vitamin C Supplementation on Blood Pressure, 797
Results of the *D*iet, *E*xercise, and *W*eight Loss *I*ntervention *T*rial (DEW-IT), 612
Collagen
Endoglin Upregulation During Experimental Renal Interstitial Fibrosis in Mice, 713
TIMP-1: A Marker of Left Ventricular Diastolic Dysfunction and Fibrosis in Hypertension, 136
Comparative mapping
Identification of Hypertension-Related QTLs in African American Sib Pairs, 634
Congestive heart failure
Rapid Effects of Aldosterone and Spironolactone in the Isolated Working Rat Heart, 130
Corticosterone
Circadian Differences in Stress-Induced Pressor Reactivity in Mice, 768
Cross-sectional studies
Prevalence, Awareness, Treatment, and Control of Hypertension in China, 920
Cyclic AMP
Interaction of Sildenafil With cAMP-Mediated Vasodilation In Vivo, 763
Cyclic GMP
Acute Antihypertrophic Actions of Bradykinin in the Rat Heart: Importance of Cyclic GMP, 498
Interaction of Sildenafil With cAMP-Mediated Vasodilation In Vivo, 763
Selective Regulation of Blood Pressure by Heme Oxygenase-1 in Hypertension, 315
Cyclooxygenase
Angiotensin II Constriction of Rat Vasa Recta Is Partially Thromboxane Dependent, 541

Cyclooxygenase-2 Inhibition Attenuates Lipopolysaccharide-Induced Cardiovascular Failure, 947
Role of Cyclooxygenase-2 in the Prolonged Regulation of Renal Function, 721
Cytochrome P450
P450-Dependent Arachidonic Acid Metabolism and Angiotensin II-Induced Renal Damage, 273

D

Deoxycorticosterone
Heart Rate Variability and Baroreflex Function in AT_2 Receptor-Disrupted Mice, 207
Diabetes
Angiotensin Blockade Prevents Type 2 Diabetes by Formation of Fat Cells, 609
Chamber-Dependent Expression of Brain Natriuretic Peptide and Its mRNA in Normal and Diabetic Pig Heart, 54
Treatment of Cardiovascular and Renal Risk Factors in the Diabetic Hypertensive, 781
Diabetes mellitus
Ascorbic Acid Reduces Blood Pressure and Arterial Stiffness in Type 2 Diabetes, 804
Association of eNOS Glu298Asp Polymorphism With End-Stage Renal Disease, 535
Hypertension, Insulin, and Proinsulin in Participants With Impaired Glucose Tolerance, 679
Impaired Fasting Glucose, Blood Pressure and Cardiovascular Disease Mortality, 458
Leptin Induces Endothelial Cell Migration Through Akt, Which Is Inhibited by PPARγ-Ligands, 748
Dialysis
Norepinephrine and Concentric Hypertrophy in Patients With End-Stage Renal Disease, 41
Diastole
Aldosterone Antagonist Improves Diastolic Function in Essential Hypertension, 647
Classification of Blood Pressure Levels by Ambulatory Blood Pressure in Hypertension, 817
Genes and Family Environment Explain Correlations Between Blood Pressure and Body Mass Index, 7
TIMP-1: A Marker of Left Ventricular Diastolic Dysfunction and Fibrosis in Hypertension, 136
Ultrasonic Backscatter and Diastolic Function in Hypertensive Patients, 239
Diastolic function
Sibling Resemblance for Left Ventricular Structure, Contractility, and Diastolic Filling, 233
Diet, sodium-restricted
ET_B Receptor in Renal Medulla Is Enhanced by Local Sodium During Low Salt Intake, 179
Digitalis-like factor
Ouabain-Binding Protein(s) From Human Plasma, 220
Diuretics
Hyperaldosteronism Among Black and White Subjects With Resistant Hypertension, 892
Drug therapy
Hemodynamic and Humoral Effects of Vasopeptidase Inhibition in Canine Hypertension, 528
Nonnarcotic Analgesic Use and the Risk of Hypertension in US Women, 604

E

Echocardiography
Excess Aldosterone Is Associated With Alterations of Myocardial Texture in Primary Aldosteronism, 23
High Rate of Ventricular Septal Defects in WKY Rats, 175
Left Ventricular Mass: Reliability of M-Mode and 2-Dimensional Echocardiographic Formulas, 673
Prognosis of Inappropriate Left Ventricular Mass in Hypertension: The MAVI Study, 470
Sibling Resemblance for Left Ventricular Structure, Contractility, and Diastolic Filling, 233
Editorial Commentaries
Blood Pressure Effects of Vitamin C: What's the Key Question?, 789
Hypertension Staging Through Ambulatory Blood Pressure Monitoring, 792
Masked Hypertension, 795
Editorials
Commentary on Liu et al: Effect of Estrogen and AT_1 Receptor Blocker on Neointima Formation, 448
Hypertension—An Update, 115
Nonnarcotic Analgesic Use and the Risk of Hypertension in US Women, 601
Electric stimulation
Angiotensin II Induces Catecholamine Release by Direct Ganglionic Excitation, 348
End-organ damage
P450-Dependent Arachidonic Acid Metabolism and Angiotensin II-Induced Renal Damage, 273
Endothelin
Effect of Pravastatin on Proteinuria in Patients With Well-Controlled Hypertension, 67
Endogenous Endothelin-1 Limits Exercise-Induced Vasodilation in Hypertensive Humans, 202
Enhanced Endothelin Activity Prevents Vasodilation to Insulin in Insulin Resistance, 78
ET_B Receptor in Renal Medulla Is Enhanced by Local Sodium During Low Salt Intake, 179
Endothelium
Angiotensin II AT_1 Receptor Antagonists Inhibit Platelet Adhesion and Aggregation by Nitric Oxide Release, 521
AVE 0991, a Nonpeptide Mimic of the Effects of Angiotensin-(1-7) on the Endothelium, 847
Effects of Black Race on Forearm Resistance Vessel Function, 195
Effects of Hematocrit Changes on Flow-Mediated and Metabolic Vasodilation in Humans, 74
Leptin Induces Endothelial Cell Migration Through Akt, Which Is Inhibited by PPARγ-Ligands, 748
Noninvasive Study of Endothelial Function in White Coat Hypertension, 304
Role of $p47^{phox}$ in Vascular Oxidative Stress and Hypertension Caused by Angiotensin II, 511
Spironolactone Improves Angiotensin-Induced Vascular Changes and Oxidative Stress, 504
Vascular Responses in Male and Female Hypertensive Rats With Hyperhomocysteinemia, 322
Von Willebrand Factor, Soluble P-Selectin, and Target Organ Damage in Hypertension: A Substudy of the Anglo-Scandinavian Cardiac Outcomes Trial (ASCOT), 61
Enzymes
Endothelin-Converting Enzyme Inhibition Ameliorates Angiotensin II-Induced Cardiac Damage, 840
Epidemiology
Obesity Hypertension in Children: A Problem of Epidemic Proportions, 441
Serum Antioxidant Vitamins and Blood Pressure in the United States Population, 810
Sibling Resemblance for Left Ventricular Structure, Contractility, and Diastolic Filling, 233
Treatment and Control of Hypertension in the Community: A Prospective Analysis, 640
Epidermal growth factor
Angiotensin II Triggers EGFR Tyrosine Kinase-Dependent Ca^{2+} Influx in Afferent Arterioles, 700
Epithelium
Amiloride, a Specific Drug for Hypertension in Black People With T594M Variant?, 13
Loss of Chromosome 16 From Renal Epithelial Cells in Humans, 928
Eplerenone
Efficacy of Eplerenone Added to Renin-Angiotensin Blockade in Hypertensive Patients, 117
Estrogen
Effect of Estrogen and AT_1 Receptor Blocker on Neointima Formation, 451
Ethnicity
Hypertension, Insulin, and Proinsulin in Participants With Impaired Glucose Tolerance, 679

Insulin Sensitivity and Blood Pressure in Black and White Children, 18
Exercise
Endogenous Endothelin-1 Limits Exercise-Induced Vasodilation in Hypertensive Humans, 202
Extracellular matrix
Norepinephrine Enhances Fibrosis Mediated by TGF-β in Cardiac Fibroblasts, 148

F

Fibrin
ACE Inhibition Versus Angiotensin Type 1 Receptor Antagonism: Differential Effects on PAI-1 Over Time, 859
Fibrinogen
Von Willebrand Factor, Soluble P-Selectin, and Target Organ Damage in Hypertension: A Substudy of the Anglo-Scandinavian Cardiac Outcomes Trial (ASCOT), 61
Fibroblasts
N-Acetyl-Ser-Asp-Lys-Pro Inhibits Phosphorylation of Smad2 in Cardiac Fibroblasts, 155
Fibrosis
Aldosterone Antagonist Improves Diastolic Function in Essential Hypertension, 647
Angiogenesis and Antifibrotic Action by Hepatocyte Growth Factor in Cardiomyopathy, 47
AT_1 Receptor Blockade Reduces Cardiac Calcineurin Activity in Hypertensive Rats, 168
Endoglin Upregulation During Experimental Renal Interstitial Fibrosis in Mice, 713
Endothelin-Converting Enzyme Inhibition Ameliorates Angiotensin II-Induced Cardiac Damage, 840
Excess Aldosterone Is Associated With Alterations of Myocardial Texture in Primary Aldosteronism, 23
Norepinephrine Enhances Fibrosis Mediated by TGF-β in Cardiac Fibroblasts, 148
Rapid Effects of Aldosterone and Spironolactone in the Isolated Working Rat Heart, 130
TIMP-1: A Marker of Left Ventricular Diastolic Dysfunction and Fibrosis in Hypertension, 136
Fos protein
Augmented Upregulation by c-*fos* of Angiotensin Subtype 1 Receptor in Nucleus Tractus Solitarii of Spontaneously Hypertensive Rats, 335
Free radicals
Activation of NADPH Oxidase During Progression of Cardiac Hypertrophy to Failure, 477
PPARα Activator Effects on Ang II-Induced Vascular Oxidative Stress and Inflammation, 866
Fructose
Decrease in Renal Medullary Endothelial Nitric Oxide Synthase of Fructose-Fed, Salt-Sensitive Hypertensive Rats, 190

G

G proteins
Association of GNAS1 Gene Variant With Hypertension Depending on Smoking Status, 261
Relation of the G Protein β_3-Subunit Polymorphism With Left Ventricle Structure and Function, 162
Gender
Vascular Responses in Male and Female Hypertensive Rats With Hyperhomocysteinemia, 322
Gene expression
Chamber-Dependent Expression of Brain Natriuretic Peptide and Its mRNA in Normal and Diabetic Pig Heart, 54
Gene therapy
Angiogenesis and Antifibrotic Action by Hepatocyte Growth Factor in Cardiomyopathy, 47
Genes
Essential Hypertension and β_2-Adrenergic Receptor Gene: Linkage and Association Analysis, 286
Genome Scan Among Nigerians Linking Blood Pressure to Chromosomes 2, 3, and 19, 629
Kallikrein Gene Delivery Improves Cardiac Reserve and Attenuates Remodeling After Myocardial Infarction, 653
Kidney Specificity of Rat Chromosome 1 Blood Pressure Quantitative Trait Locus Region, 292
Genetics
Association of GNAS1 Gene Variant With Hypertension Depending on Smoking Status, 261
Chronology Versus Biology: Telomeres, Essential Hypertension, and Vascular Aging, 229
Genes and Family Environment Explain Correlations Between Blood Pressure and Body Mass Index, 7
Genome Scans for Blood Pressure and Hypertension: The National Heart, Lung, and Blood Institute Family Heart Study, 1
Kidney Specificity of Rat Chromosome 1 Blood Pressure Quantitative Trait Locus Region, 292
Polymorphism in Soluble Epoxide Hydrolase and Blood Pressure in Spontaneously Hypertensive Rats, 485
Relation of the G Protein β_3-Subunit Polymorphism With Left Ventricle Structure and Function, 162
Serum- and Glucocorticoid-Regulated Kinase (SGK1) Gene and Blood Pressure, 256
Sibling Resemblance for Left Ventricular Structure, Contractility, and Diastolic Filling, 233
Genome scan
Identification of Hypertension-Related QTLs in African American Sib Pairs, 634
Ghrelin
Central Ghrelin Modulates Sympathetic Activity in Conscious Rabbits, 694
Glucocorticoids
Programming Effects of Short Prenatal Exposure to Dexamethasone in Sheep, 729
Glucose
ACE Inhibitor Improves Insulin Resistance in Diabetic Mouse Via Bradykinin and NO, 329
Impaired Fasting Glucose, Blood Pressure and Cardiovascular Disease Mortality, 458
Glucose clamp technique
Angiotensin II-Induced Insulin Resistance Is Associated With Enhanced Insulin Signaling, 872
Glutathione
Genomic Association/Linkage of Sodium Lithium Countertransport in CEPH Pedigrees, 619

H

Heart
Chamber-Dependent Expression of Brain Natriuretic Peptide and Its mRNA in Normal and Diabetic Pig Heart, 54
Heart failure
Activation of NADPH Oxidase During Progression of Cardiac Hypertrophy to Failure, 477
Angiotensin II and Oxidative Stress in Dahl Salt-Sensitive Rat With Heart Failure, 834
Long-Term Adrenomedullin Administration in Experimental Heart Failure, 667
Perindopril Effect on Uncoupling Protein and Energy Metabolism in Failing Rat Hearts, 251
Role of AT_2 Receptors in the Cardioprotective Effect of AT_1 Antagonists in Mice, 244
Heart rate
Circadian Differences in Stress-Induced Pressor 0Reactivity in Mice, 768
Heme oxygenase
Selective Regulation of Blood Pressure by Heme Oxygenase-1 in Hypertension, 315
Hemodynamics
Cyclooxygenase-2 Inhibition Attenuates Lipopolysaccharide-Induced Cardiovascular Failure, 947
Hemodynamic and Humoral Effects of Vasopeptidase Inhibition in Canine Hypertension, 528
Role of Cyclooxygenase-2 in the Prolonged Regulation of Renal Function, 721

Hemodynamics, renal
Renal Hemodynamic and Natriuretic Effects of Concomitant Angiotensin-Converting Enzyme and Neutral Endopeptidase Inhibition in Men, 266
Hemoglobin
Effects of Hematocrit Changes on Flow-Mediated and Metabolic Vasodilation in Humans, 74
Hepatocyte growth factor
Angiogenesis and Antifibrotic Action by Hepatocyte Growth Factor in Cardiomyopathy, 47
Human
Interaction of Sildenafil With cAMP-Mediated Vasodilation In Vivo, 763
NAD(P)H Oxidase Inhibition Improves Endothelial Function in Rat and Human Blood Vessels, 755
Renal Hemodynamic and Natriuretic Effects of Concomitant Angiotensin-Converting Enzyme and Neutral Endopeptidase Inhibition in Men, 266
Hyperaldosteronism
Hyperaldosteronism Among Black and White Subjects With Resistant Hypertension, 892
Hyperglycemia
Treatment of Cardiovascular and Renal Risk Factors in the Diabetic Hypertensive, 781
Hyperinsulinism
Rosiglitazone Treatment Restores Renal Dopamine Receptor Function in Obese Zucker Rats, 880
Hyperlipidemia
Genome Scans for Blood Pressure and Hypertension: The National Heart, Lung, and Blood Institute Family Heart Study, 1
Hyperpolarization
Rostral Ventrolateral Medulla Neurons of Neonatal Wistar-Kyoto and Spontaneously Hypertensive Rats, 560
Hypertension, arterial
Classification of Blood Pressure Levels by Ambulatory Blood Pressure in Hypertension, 817
Spironolactone Improves Angiotensin-Induced Vascular Changes and Oxidative Stress, 504
Upregulation of L-Type Ca^{2+} Channels in Mesenteric and Skeletal Arteries of SHR, 214
Hypertension, chronic
Effect of Pravastatin on Proteinuria in Patients With Well-Controlled Hypertension, 67
Hypertension, detection and control
Goal-Oriented Hypertension Management: Translating Clinical Trials to Practice, 464
Prevalence, Awareness, Treatment, and Control of Hypertension in China, 920
Treatment and Control of Hypertension in the Community: A Prospective Analysis, 640
Hypertension, endocrine
Excess Aldosterone Is Associated With Alterations of Myocardial Texture in Primary Aldosteronism, 23
Hypertension, essential
Aldosterone Antagonist Improves Diastolic Function in Essential Hypertension, 647
Amiloride, a Specific Drug for Hypertension in Black People With T594M Variant?, 13
Association of GNAS1 Gene Variant With Hypertension Depending on Smoking Status, 261
Chronology Versus Biology: Telomeres, Essential Hypertension, and Vascular Aging, 229
Classification of Blood Pressure Levels by Ambulatory Blood Pressure in Hypertension, 817
Effects of Black Race on Forearm Resistance Vessel Function, 195

Simvastatin Prevents Angiotensin II-Induced Cardiac Alteration and Oxidative Stress, 142
Stress
Is Cardiovascular Reactivity Associated With Atherosclerosis Among Hypertensives?, 742
Reactivity as a Predictor of Subsequent Blood Pressure: Racial Differences in the Coronary Artery Risk Development in Young Adults (CARDIA) Study, 914
Stroke
Increase in Cx45 Gap Junction Channels in Cerebral Smooth Muscle Cells from SHR, 940
Superoxide
NAD(P)H Oxidase Inhibition Improves Endothelial Function in Rat and Human Blood Vessels, 755
Sympathetic activity
Norepinephrine and Concentric Hypertrophy in Patients With End-Stage Renal Disease, 41
Sympathetic nervous system
Angiotensin II Induces Catecholamine Release by Direct Ganglionic Excitation, 348
Catecholamine-Related Gene Expression Correlates With Blood Pressures in SHR, 342
Exogenous Angiotensin II Does Not Facilitate Norepinephrine Release in the Heart, 491
Systole
Classification of Blood Pressure Levels by Ambulatory Blood Pressure in Hypertension, 817
Genes and Family Environment Explain Correlations Between Blood Pressure and Body Mass Index, 7

T

Target organ damage
Von Willebrand Factor, Soluble P-Selectin, and Target Organ Damage in Hypertension: A Substudy of the Anglo-Scandinavian Cardiac Outcomes Trial (ASCOT), 61
Thromboxane
Angiotensin II Constriction of Rat Vasa Recta Is Partially Thromboxane Dependent, 541
Transcription
Augmented Upregulation by c-*fos* of Angiotensin Subtype 1 Receptor in Nucleus Tractus Solitarii of Spontaneously Hypertensive Rats, 335
Transforming growth factors
Endoglin Upregulation During Experimental Renal Interstitial Fibrosis in Mice, 713
N-Acetyl-Ser-Asp-Lys-Pro Inhibits Phosphorylation of Smad2 in Cardiac Fibroblasts, 155
Norepinephrine Enhances Fibrosis Mediated by TGF-β in Cardiac Fibroblasts, 148
Transplantation, renal
Kidney Specificity of Rat Chromosome 1 Blood Pressure Quantitative Trait Locus Region, 292
Twins
Genes and Family Environment Explain Correlations Between Blood Pressure and Body Mass Index, 7
Serum- and Glucocorticoid-Regulated Kinase (SGK1) Gene and Blood Pressure, 256

U

Ultrasonography
Ultrasonic Backscatter and Diastolic Function in Hypertensive Patients, 239
Uncoupling proteins
Perindopril Effect on Uncoupling Protein and Energy Metabolism in Failing Rat Hearts, 251
Uremia
Norepinephrine and Concentric Hypertrophy in Patients With End-Stage Renal Disease, 41
Uric acid
Uric Acid, Hominoid Evolution, and the Pathogenesis of Salt-Sensitivity, 355

V

Vascular remodeling
Effect of Estrogen and AT_1 Receptor Blocker on Neointima Formation, 451

Vasculature
Gq-Coupled Receptor Agonists Mediate Cardiac Hypertrophy Via the Vasculature, 660
Leptin Induces Endothelial Cell Migration Through Akt, Which Is Inhibited by PPARγ-Ligands, 748
Mitogenic Activity of Oxidized Lipoprotein (a) on Human Vascular Smooth Muscle Cells, 310
Vasodilation
AT_2 Receptor-Mediated Relaxation Is Preserved After Long-Term AT_1 Receptor Blockade, 516
Effects of Hematocrit Changes on Flow-Mediated and Metabolic Vasodilation in Humans, 74
Endogenous Endothelin-1 Limits Exercise-Induced Vasodilation in Hypertensive Humans, 202
Long-Term Adrenomedullin Administration in Experimental Heart Failure, 667
Noninvasive Study of Endothelial Function in White Coat Hypertension, 304
Vasopeptidase
Renal Hemodynamic and Natriuretic Effects of Concomitant Angiotensin-Converting Enzyme and Neutral Endopeptidase Inhibition in Men, 266
Venous thrombosis
Antithrombotic Effect of Captopril and Losartan Is Mediated by Angiotensin-(1-7), 774
Ventricular function
High Rate of Ventricular Septal Defects in WKY Rats, 175
Ventricular function, left
Aldosterone Antagonist Improves Diastolic Function in Essential Hypertension, 647
Viscosity
Effects of Hematocrit Changes on Flow-Mediated and Metabolic Vasodilation in Humans, 74
Vitamins
Ascorbic Acid Reduces Blood Pressure and Arterial Stiffness in Type 2 Diabetes, 804
Lack of Long-Term Effect of Vitamin C Supplementation on Blood Pressure, 797
Serum Antioxidant Vitamins and Blood Pressure in the United States Population, 810
Von Willebrand factor
Von Willebrand Factor, Soluble P-Selectin, and Target Organ Damage in Hypertension: A Substudy of the Anglo-Scandinavian Cardiac Outcomes Trial (ASCOT), 61

W

Water-electrolyte balance
ET_B Receptor in Renal Medulla Is Enhanced by Local Sodium During Low Salt Intake, 179
